

## Yukon Education

has provided an annual subscription to Expert Space for grades 4–10 teachers and students. This subscription will expire in February, 2014. We will be eliciting feedback in December, 2013 to inform our decision to renew or not.

**This includes unlimited access to a digital curriculum in Science and Social Studies at school, in the public library, and at home.**

**Note:** The first time anyone logs into Expert Space, it must be from a school computer in order for Expert Space to recognize you as a valid user.

## Here's how to enable your subscription:

STEP 1: To activate your subscription from within your institution, point your browser to:

[http://auth.grolier.com/cgi-bin/go\\_up\\_login?formu=192351&formp=ex&link=expertspace.ea.grolier.com](http://auth.grolier.com/cgi-bin/go_up_login?formu=192351&formp=ex&link=expertspace.ea.grolier.com)

You should arrive at the Expert Space Home page allowing you to start using this curriculum resource immediately.

(If you do not see the Expert Space home page, please contact us as soon as possible at 1-888-326-6546 or [scholasticcustomersupport@scholastic.com](mailto:scholasticcustomersupport@scholastic.com).)

STEP 2: From the Expert Space home page each teacher, librarian and student who plans on using Expert Space should create a personal username/password. This will facilitate access to the full suite of learning tools. Please click on “Create a Profile” below the username and password window, or at the top of the Expert Space home page.

STEP 3: Once each teacher, librarian or student has created a personal username and password they can access Expert Space anywhere, anytime at <http://expertspace.ca> by using this username and password.

You may want to create a record of students' usernames/passwords at this time.

STEP 4:

For additional questions or technical support, please do not hesitate to phone 1-888-326-6546 or [scholasticcustomersupport@scholastic.com](mailto:scholasticcustomersupport@scholastic.com)

## A 21st Century Curriculum for 21st Century Students

Today's digital students have access to a wealth of information, yet many struggle to navigate, evaluate, organize, or even comprehend this information appropriately and effectively.

To succeed in today's digital world—and in the future—all learners need accessible, leveled content-area information and interactive, personalized learning tools.

**Expert Space is now available for Yukon teachers and students, grades 4-10, with thanks to Yukon Education and Scholastic Canada**

## EXPERT SPACE - [HTTP://EXPERTSPACE.CA](http://expertspace.ca)
